

NiteLites of Kansas City Outdoor Lighting Opens

NiteLites of Kansas City Outdoor Lighting Opens Bringing LED landscape lighting to area homes and businesses.

Overland Park, KS June 10, 2010 -- NiteLites, an industry leader in the low voltage and LED landscape lighting field, specializing in both residential and commercial installations, announces its newest locally owned outdoor lighting franchise location in Kansas City, Kansas and Kansas City, Missouri. Some of the cities in the Kansas City areas where NiteLites will install, design, and repair landscape lighting fixtures include: Countryside, Edgerton, Gardner, Lake Quivira, Leawood, Overland Park, and Mission Hills. NiteLites of Kansas City is locally owned and operated by Denny Bringman, with Doug Bringman serving as General Manager.

“ **New Outdoor Lighting Business owners said they are excited to bring the NiteLites’ brand to Kansas City.** ”

While attending Otterbein College, Doug Bringman met current NiteLites of Columbus, Ohio and Jacksonville, Florida owner, Trevor Rosendahl. The two quickly struck up a friendship and sparked Doug’s interest in this national outdoor lighting Company. Upon moving to Sarasota, Florida in 2008, he began working at NiteLites of Sarasota Outdoor Lights in the Sales Department. His love of the company encouraged him to branch out with his brother, Denny, and purchase a franchise of their own. Kansas City was the perfect choice for the two. Denny has built a home and family there for the past eight years, working as a mechanical engineer and knew the market was in need of professional, upscale outdoor lighting designers. The Bringmans said they are excited to bring the NiteLites’ brand to Kansas City and hope to one day expand into St. Joseph and Lawrence.

To request your free outdoor lighting consultation in Kansas City, contact Mr. Denny Bringman or Mr. Doug Bringman of NiteLites of Kansas City, call 913-871-1299 or contact them online at http://www.nitelites.com/Kansas_City_Landscape_Lighting .

NiteLites Franchise Systems, Inc., world headquarters, located in the Dayton, Ohio area specializes in the manufacturing, sales, design, installation, repair, and lifetime maintenance of their top-quality, low voltage and LED lighting for both residential and commercial applications. NiteLites’ proprietary line of copper and brass fixtures provide an inviting application of light on any project.
